

# Atlantis

## Greetings—

Weather suits that will keep the crew dry and comfortable in inclement weather are essential equipment for any vessel. Our weather suits have been designed by members of the Atlantis group who are intensely involved in ocean sailing and who enjoy exposure to weather that many consider "foul." We have taken the "foul" out of weather gear because we firmly believe that, properly protected from the elements, there is only weather and more weather. Atlantis weather suits provide total protection against extremes in wind and water.

Like other equipment designed for use on the oceans, weather suits should be constructed from quality materials and with conscientious workmanship. We have designed our weather suits to be used hard and have tested them under extreme conditions so that you may be assured of total protection not just when our suit is new but through many seasons of active use.

We invite you to try Atlantis weather suits, compare them with any other, and test them under your own conditions of use for a full season. If they do not meet your test, just send them back to us and we will promptly refund your full purchase price. We sincerely believe that our products will give you complete satisfaction.

## Value

We of Atlantis are firmly committed to offering our customers sound value—a superior product at a reasonable price. Our catalog provides a forum for selling our products directly to you, bypassing the traditional middleman, so that you may realize substantial savings. This method of distribution also allows us to include many small but important features that other manufacturers must eliminate to be competitive in price at a retail store. We feel that the value shown in our products will become even more apparent through your use and comparison.

## Our Guarantee

We invite you to try Atlantis products, compare them with any other, and test them under your own conditions of use for an entire season. If you are not completely satisfied, just send them back to us within one full season and we will promptly refund your full purchase price. We carefully inspect each Atlantis product to insure quality. If at any time you should discover a defect that has slipped by us, just send it back and we will repair it, replace it, or refund your money. We are proud to stand behind every Atlantis product.

## Our Fabric

Our Atlantis weather suits required the use of fabric that would surpass the most critical testing of the oceans. It had to be completely waterproof so that it would not “breathe” water in. It had to retain this total waterproofness over years of hard use, after fathoms of line had run across its surface, and after prolonged exposure to both sun and salt. The fabric had to be lightweight, inherently strong, and highly resistant to oils, grease, and mildew.

To perform this task, we offer two nylon fabrics both of which are treated with our special neoprene coating. In the Atlantis Ultimate Jacket and Ultimate Pants and for the high visibility side of the Atlantis Turnabout, we use a 3 oz. nylon twill—the ultimate in abrasion resistance and durability. For the Atlantis Mariner Jacket and Pants, the Atlantis Sailor Jacket, and the reverse side of the Atlantis Turnabout, we use a 2 oz. nylon taffeta with our special neoprene coating to offer a choice of tough, *superlight* weather suits.

To insure that our fabric retains its complete waterproofness over many seasons of active use, we use a special neoprene coating—a coating that is at least three times as expensive as the polyurethane and polyvinylchloride (PVC) commonly used. We use a neoprene coating because it outperforms polyurethane and PVC by far in abrasion resistance and durability.

## **The Weather Flap**

To protect you from seepage through the zipper during the most extreme conditions, all Atlantis weather jackets employ a wide, 3 inch weather flap on both the outside and the inside of the jacket with the zipper recessed between them. This weather flap system is similar to that used in firemen's coats where this closure has proven its superiority. The outside flap is positively sealed by a full-length velcro closure on the Atlantis Ultimate Jacket and by closely-spaced, non-corroding, nicked-brass snaps on the Atlantis Turn-about, Mariner, and Sailor Jackets. All Atlantis jackets use a rugged, all-nylon zipper which remains smooth sliding because it is self-lubricating, and unaffected by oils or salt water.

## **The Cuffs**

The Atlantis Ultimate and Mariner Jackets utilize a unique and adjustable double cuff system which provides both comfort and weather protection. The inner cuff is elasticized with wide, 1 inch elastic and adjusts by means of three nicked-brass snaps. It can be closed snugly in rough weather or left open for maximum ventilation. The outer cuff is smart looking and can be snapped to give additional weather protection. On our Sailor Jacket, we use a single cuff made exactly as the inner cuff of the Ultimate and Mariner Jackets. The reversible Atlantis Turn-about employs adjustable velcro tabs on each side of the cuff to insure weather protection both while at sea and in port.

## **The Hood**

All Atlantis Jackets have a full-cut hood that adjusts with nylon drawstrings for maximum comfort and weatherproofness. A substantial brim is incorporated into the cut of the hood to protect against rain and spray. The hood rolls away to form a comfortable collar secured by nicked-brass snaps.

## **The Pocket Seal**

To prevent the annoying tendency of spray and driving rain to dampen the contents of your pockets, we have extended the outer edge of our pockets onto the pocket flap. When the flap is closed, a fold is created at the top of the pocket which forms an additional seal. The flap is secured by a full-length strip of velcro or by double, nicked-brass snaps as added protection.

## **Seams and Stress Points**

On all Atlantis weather suits, the utmost care and attention is given to seams and stress points. For the major outside seams, we use a lapped, double-needle seam. Each outside seam is then sealed by hand three separate times to create a totally waterproof seam. On the inner lining of the Atlantis Ultimate and Mariner Jackets, the seams are surged and top-stitched to prevent unraveling. The stress points on all our pockets are bar-tacked and each drawstring eyelet is reinforced by a special backing. We have constructed all Atlantis products to provide many years of trouble-free service.

## The Atlantis Turnabout

The Turnabout is our *reversible* weather jacket providing double layer protection and a practical color for both sea and harbor. The high-visibility side is made from our 3 oz. nylon twill while the harbor side is of our 2 oz. nylon taffeta. Both layers of fabric are treated with our special neoprene coating to give you total protection. Each side of the Turnabout has two large, cargo pockets employing our watertight pocket seal with full velcro strips securing the flaps. A rugged nylon zipper is sealed by our double weather flaps with snap closure. The hood rolls away, fastened by snaps, when not in use. The cuffs may be adjusted by velcro tabs on each side. The Turnabout is raglan cut for maximum comfort and freedom of movement. Available in two color combinations: Pirate's Gold with Power Blue or Blazing Lobster with Plain Ole Navy. For both men and women in one sizing: XS, S, M, L, XL.

**\$37.50 postpaid**

## **The Atlantis Ultimate Jacket**

The Atlantis Ultimate provides the ultimate in protection, comfort, and convenience. For protection, the Ultimate utilizes our wide, 3 inch double weather flap system with recessed nylon zipper and full-length velcro closure. The Ultimate has adjustable inner and outer cuffs for comfort and weather protection. The full-cut hood has an integral brim and rolls away secured by nicked-brass snaps when not in use. The weather side of the Ultimate is made from our 3 oz. nylon twill with our special neoprene coating. It is completely lined with breathable, mildew-proof nylon taffeta for the ultimate in comfort. For maximum convenience, the Ultimate has four front pockets: two chest pockets and two lower, cargo pockets. All four pockets employ our watertight seal with full-length velcro strips fastening the flaps. Drawstrings at both the waist and the bottom. Raglan cut for freedom and comfort. Available in Pirate's Gold, Blazing Lobster, or Power Blue. For men and women in one sizing: XS, S, M, L, XL.

**\$32.50 postpaid**

## **The Atlantis Ultimate Pants**

The Atlantis Ultimate Pants are high-cut in a roomy bibbed style and made from our 3 oz. nylon twill fabric with our rugged neoprene coating. Both the knees and seat are double-layered for added abrasion resistance and protection. The Ultimate Pants have a large, chest pocket with our watertight seal. The hidden fly is sealed with a nylon zipper and covered by a weather flap. The cuffs have a velcro adjustment for a comfortable, weathertight fit. The back of the waist and the suspenders are elasticized for maximum comfort and fit. Suitable with any Atlantis weather jacket. In Pirate's Gold, Blazing Lobster, or Power Blue. For men and women in one sizing: S, M, L, XL.

**\$16.50 postpaid**

### **The Atlantis Mariner Jacket**

The Atlantis Mariner is made from our lightweight, 2 oz. nylon taffeta with our special neoprene coating. It is lined to the waist with breathable nylon taffeta for maximum comfort. The wide double weather flap is fastened by a recessed nylon zipper and closely spaced, nicked-brass snaps. The full-cut hood adjusts with a nylon drawstring and rolls and snaps away when not in use. The Mariner has adjustable inner and outer cuffs for comfort and weather protection. It has two large, cargo pockets with our watertight seal and double snaps. A drawstring at the waist and a raglan cut provide comfort and freedom of movement. Available in Pirate's Gold, Blazing Lobster, or Power Blue. For both men and women in one sizing: XS, S, M, L, XL.

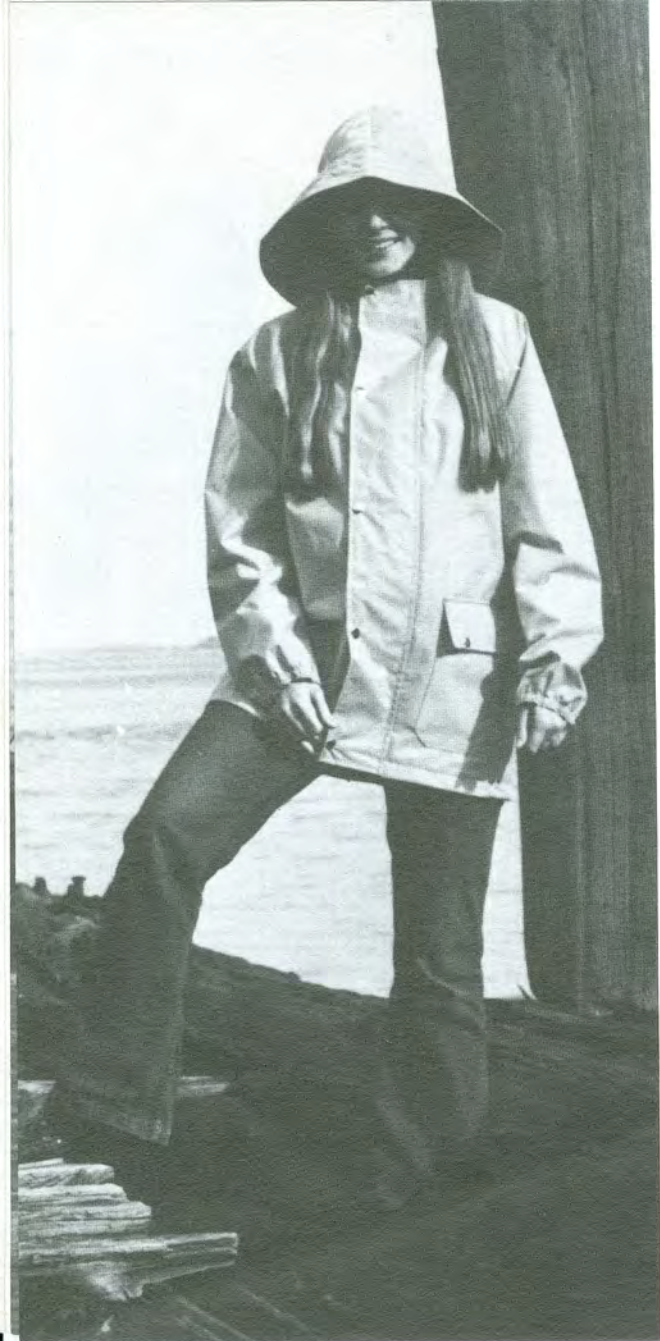

**\$25.00 postpaid**

### **The Atlantis Mariner Pants**

Made from our lightweight 2 oz. nylon taffeta with our rugged neoprene coating, the Mariner Pants are cut in a high-waist style. The back of the waist and the suspenders are elasticized for maximum comfort and fit. The cuffs are adjustable with velcro. Suitable with any Atlantis Jacket. In Pirate's Gold, Blazing Lobster, or Power Blue. For men and women in one sizing: S, M, L, XL.

**\$11.00 postpaid**

### **The Atlantis Sailor Jacket**

The Atlantis Sailor is made of our lightweight, 2 oz. nylon taffeta with our special neoprene coating. The Sailor employs our wide double weather flap, recessed nylon zipper, and nicked-brass snap fasteners. The full-cut hood adjusts with a nylon drawstring and rolls and snaps away. Cuffs are elasticized and snap adjustable. Large cargo pocket with our watertight seal and double nicked-brass snaps. Raglan cut with a drawstring at the bottom. Available in Pirate's Gold, Blazing Lobster, and Power Blue. For men and women in one sizing: XS, S, M, L, XL.

**\$17.50 postpaid**

### **The Economy Weather Jacket**

This inexpensive weather jacket is made from a durable, 2 oz. nylon oxford with a superurethane coating. It has a double weather flap closed by nicked-brass snaps. A drawstring adjustable hood snaps away when not in use. The cuffs are adjustable with snaps. Bright yellow only. For men and women in one sizing: XS, S, M, L, XL.

**\$11.95 postpaid**

### **The Economy Weather Pants**

These inexpensive weather pants are made from the same durable fabric as the Economy Weather Jacket. They are cut in a high-waist style and have elasticized suspenders. The cuffs are adjusted by snaps. Bright Yellow only. For men and women in one sizing: S, M, L, XL.

**\$7.95 postpaid**
